Relevant Experience

Election Map
Project | ethan-edmond.github.io/election-map | 2020

In this project, I made an election map in javascript that tallies votes and responds to mouse-overs by showing the results at the selected state. This project used foreign code, bettering my ability to read code.

Unplugged Retreat
Project | ethan-edmond.github.io/unplugged-retreat | 2020

In this project, I made a responsive site in html and css from a photoshop design comp. This project used fontAwesome icons, embedded iframes and a mix of percentages and breakpoints to become responsive.

Window washer
Sparklean | Monument, CO | 2016 – Present

Currently I am a student at UCCS and window washer for Sparklean, a local cleaning company. My help with the window washing team has reduced the time required by about 40%.

Driver
C.R. England | Salt Lake City, UT | 2015 – 2016

Worked as a semi-truck driver, taking precious cargo all over America. I delivered cargo on time despite any weather conditions or mechanical issues.

Temp
Manpower Inc. | Colorado Springs, CO | 2015 – 2016

Worked as a temp in a local walmart, in which I helped build several sections of the store.

Associate/Baker
King Soopers | Monument, CO | 2011 – 2012

Worked as an associate and baker. I did everything from cleaning to manning registers to inventory and stocking.

Education

Pikes Peak Community College
Associate of Science in
Biology with a focus on mathematics

Skillcrush
Front-End Development Classes

Skills

Front-End Skills
HTML5
CSS3
JavaScript
JQuery

Back-End Skills
Git

Design Skills
Adobe Photoshop

Objective

I would like to become a front end developer
I would like a change from working in manual labor, to being able to make money using my mind to solve your problems.
